

SHREDDER PERFORMANCE KIT

Rev-Up Your Shredder With A Performance Kit

Just like any fine tuned machine, your shredder needs to be properly oiled to run at peak performance. But this simple task is often neglected, which causes unnecessary jamming and decreased performance.

Dahle's new Shredder Performance Kit is the perfect solution and effectively eliminates the guesswork of "Who", "How Much", and "How Often" your shredder will be oiled.

Shredders are relatively tolerant machines and the good ones can take a lot of abuse before they give up and continually jam. There are many factors that contribute to a jam such as improper voltage, exceeding sheet capacity, and improper oiling. While Dahle has no control over the first two issues, the Shredder Performance Kit is the best way to prevent the third - improper oiling. This kit includes:

Automatic Oiler - Provides slow, continuous oil across the entire cutting mechanism. This lubrication reduces wear on the precision milled cutting cylinders and ensures optimal shred capacity and performance.

Dahle Shredder Oil - Specially formulated to eliminate any residue that could attract dust and clog the cutting mechanism.

Shred Bags - Designed to expand to the maximum capacity of your new Dahle professional shredder.

Professional Installation - This kit is professionally installed at the time of purchase. Just attach, fill, and shred.

This all-in-one solution to your new shredder will allow you to maintain factory spec performance each and every day. It's the perfect option for a centralized shredder with multiple users. The Shredder Performance Kit will give you peace of mind knowing your shredder is properly maintained and always ready to shred your unwanted confidential information.

SHREDDER PERFORMANCE KIT

- ▶ Maintains peak operating performance
- ▶ Greatly reduces paper jams
- ▶ Continually lubricates the cutting mechanism
- ▶ Auto Shut-off when the oiler is low
- ▶ Includes supplies for extended usage

Dahle's precision milled cutting cylinders require proper lubrication to ensure optimal performance.

Dahle's Automatic Oiler provides slow, even lubrication across the entire cutting head.
