"ENERGY SMART" Personal and office Cross-Cut Shredder with "THROW & SHRED" System

- Special "THROW AND SHRED" System with automatic feeder for shredding crumpled paper.
- Carbon Hardened Steel Cutting Knives
- 3 SHREDDER FUNCTIONS: Sheet Paper, Media (CDs, DVDs, Credit Cards etc.) and crumpled paper.
- 2 Separate sets of cutting blades: One for paper and one for Media (CDs, DVDs, Credit Cards etc.).
- Double Waste Bin: Separates shredded material by type.
- MOBILE PROTECTION SYSTEM: With transparent opening lid and automatic suspension closing.
- Wide throat for convenient paper shredding.
- Available in two cross-cut models
- Shreds up to 14 sheets of paper at a time
- "Energy-Smart" Power Management System: Zero power consumption in stand-by mode.
- 24 Hour Continuous Duty Motors: No duty cycle or timed cool down periods. Some models feature low noise/high performance motor.
- Automatic Start/Stop through electronic eyes.
- Automatic Stop for bin removal.

1: STANDARD SHREDDING:

Shred up to 26 sheets of paper at a time through the wide, convenient throat.

2: SHRED CDs, DVDs, CREDIT CARDS AND OTHER MEDIA:

Lift the cover and insert your media into the dedicated throat. Close the cover and the machine automatically shreds the data material.

3: SHRED CRUMPLED PAPER:

Simply lift the cover and throw crumpled paper into the machine. Close the cover and the special "Throw and Shred" system uses its automatic feeder, with revolving flaps, to shred the material.

4: MOBILE PROTECTION SYSTEM

Encloses the second cutting throat and eases in the removal of jams and blockages. Also utilizes auto safety-stop.

2 distinct integrated removable bins for separating shredded paper and plastic from CD-ROMs, DVDs and Credit Cards. Transparent window on the front makes it simple to check the level in each bin. No need for plastic bin bags

Kobra+3 with "THROW AND SHRED"

The KOBRA +3 line is available in two distinctive cross cut models. With capacities up to 14 sheets and 24 hour continuous duty motors, the KOBRA +3 will exceed the needs of your busy office environment. The newest innovation on this model is "THROW AND SHRED" technology. This system utilizes rotating flaps as an automatic feeder, allowing the user to throw crumpled paper into the unit. With two separate sets of cutting blades, you can be sure that the disposal of shredded material will be done with ease. Keeping track of bin capacity is made simple with a front mounted bin window. Equipped with KOBRA's "ENERGY-SMART" technology, the +3 not only helps protect the environment by reducing CO2 emissions, but saves money in energy usage.
