About the SEM Auto Oiler

The SEM Model 2226CC/3 uses an EXCLUSIVE factory installed Automatic Oiler with a **ONE GALLON** plastic bottle of oil that can be deployed on either side or the back of the machine. The oil bottles are simply and easily switched using a "quick disconnect" that snaps into place. No pouring to fill messy reservoirs.

About SEM-Pro Feature Group

Safety Features: A comprehensive safety package that ensures optimum safety. Consists of an **SPS** (Safety Protection System), an Electronically Controlled safety flap in the feed opening to prevent fingers and ties from entering the cutting area. **Auto reverse and power cut-off** to avoid paper jams; **Bag full and door ajar** auto shut down.

Energy Saving GREEN Features: Integrated **ESM** (Energy Saving Mode) to automatically shut down the system after 30 minutes of non use. Double motor protection against overheating and insulation for **noise reduction**. Cabinets made from **recycled wood** materials.

User Performance Features: **ECC** (Electronic Capacity Control), a visual *feed meter and oil indicator* to help prevent overfeeding and to show auto oiling functionality. Auto functions are also controlled by the easy-to-use **EASY SWITCH** panel with integrated visual indicators.
