Annex A to NSA/CSS 02-01
30 April 2009***

**NSA/CSS EVALUATED PRODUCTS LIST
for
HIGH SECURITY CROSSCUT PAPER SHREDDERS**

The Evaluated Products List (EPL) contains a listing of high security crosscut paper shredders that have been evaluated by the National Security Agency (NSA) or its designee and meet the performance requirements of NSA/CSS Specification 02-01, High Security Crosscut Paper Shredders. Inclusion of a product in the EPL is not an endorsement by NSA or the U.S. Government.

The EPL provides the shredder device name and/or model number, the manufacturer, and appropriate contact data for the distributor and/or marketing agent. Shredders are listed alphabetically by distributor name. The EPL also describes the shredder feed throat width and quantity of paper shredded in a one hour durability test.¹

The EPL shall be updated on an as-needed basis (as new models are successfully evaluated). Users are encouraged to contact shredder manufacturers /distributors for assistance in selecting unit(s) best suited to their requirements, and to determine if additional shredder units have been added to the EPL in the interim.

The procedures for administration and distribution of the EPL are subject to change without notice. Inquiries from U.S. Government users should be forwarded through designated customer support channels to the NSA Information Assurance Directorate. All other inquiries should be directed to the NSA Public Affairs Office.

¹ All tests were performed using uncoated, sheet cut (8.5 x 11 inch) twenty (20) pound weight copy paper, 500 sheets per ream
